Profile

Highly skilled Full Stack Developer with a proven track record in delivering innovative and efficient web applications. Proficient in both front-end and back-end development, with expertise in various programming languages and frameworks. Committed to delivering high-quality code and exceptional user experiences. Seeking a challenging position to utilize my skills and contribute to the success of a dynamic organization.

Work Experience

04/2023 – present
Israel

Full Stack Developer
NEYA

- Developed and implemented a scalable web application utilizing HTML, CSS, and JavaScript / Typescript, resulting in a 30% increase in user engagement and a 20% decrease in page load time.
- Collaborated with cross-functional teams to design and develop a RESTful API, streamlining data exchange between front-end and back-end systems, and improving overall system efficiency by 25%.
- Led the migration of legacy codebase to a modern tech stack, including REACT.JS (includes Redux) with typescript and Spring with java, resulting in a more robust and maintainable application architecture and reducing bug count by 40%.
- Conducted thorough testing and debugging of complex software components, identifying and resolving critical issues, and ensuring the delivery of high-quality and error-free software products to clients.
- Deployment: Capable of utilizing AWS to deploy React and Spring web applications. I'm familiar with: EC2, S3, RDS, IAM, Secret Manager, SES, Elastic Beanstalk, VPC and Route 53.
- I mostly use MySQL, but also can use MongoDB and Microsoft SQL Servers.

04/2022 – 07/2023
Rosh Ha'ayin, Israel

IT and network support
Priority

- Worked with a team of technicians in troubleshooting and resolving complex network issues, resulting in a 30% increase in network uptime and improved user satisfaction.
- Implemented and managed a robust backup and disaster recovery solution, ensuring uninterrupted access to critical systems and minimizing data loss in the event of a failure.
- Upgraded and optimized network infrastructure, resulting in a 20% decrease in network latency and improved overall network performance.
- Provided timely and effective IT support to end-users, resolving hardware and software issues, and achieving a 95% customer satisfaction rating.
